

To Whom It May Concern,

We used Garden Electric, Inc. to install our communication from our main front door to each individualized office for our new buildout. Since all our tenants have moved in, everything has been working perfectly. Garden Electric, Inc. did a great job and would highly recommend them to anyone looking for great electrical work. We would love to be able to use them for future projects when they become available. Great job Garden Electric, Inc. and thank you.
