Dear Brenda:

Please see below for comments as a testimonial for your website.

I contacted Garden Electric, Inc. earlier this year to get some new cubicles set up with wiring and power and to get a proper outlet installed for a new copy machine. I called a few local electricians to get quotes but after meeting Kurt our decision was made. Kurt was very professional and understood exactly what we needed. We are very pleased with the services provided by Garden Electric and would definitely use in the future and recommend to potential clients.

Sincerely,

FRIEDMAN & HUEY ASSOCIATES LLP
